

MOBIL ID

MOBIILIVARMENNE

PART OF SIGNICAT IDENTITY SERVICES

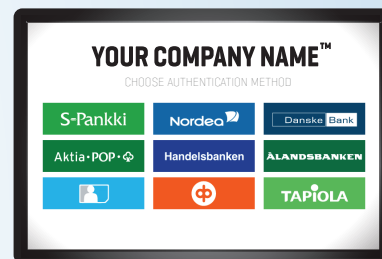

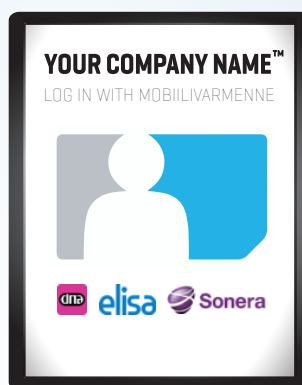

MOBIILIVARMENNE
MOBIL ID

Get to know your users — even while they're on the go. Signicat expands its' offerings in the Finnish market, providing you with easy access to the new mobile identity solution in Finland.

Using Signicat services means you can add Mobiliivarmenne as a standalone authentication and signature mechanism, or you may choose to include it as an option in a regular Signicat Tupas integration.

The content provided by Signicat uses vector graphics and is compliant with HTML5 web technologies, making sure your login process looks crystal sharp on any device.

Outsourcing your identity needs to Signicat means you can focus on what's important: Your business. Signicat takes care of the rest, making sure that you've always got access to the latest technology in the Finnish market for online authentication and signatures.
